

ENVIRONMENTAL POLICY

We at Hanlon Concrete are conscious of our social responsibilities with regards to helping the environment through our working practices. Our objective is not only to sustain our environment for our descendants but also to rehabilitate where possible. We believe that our corporate responsibility goes beyond our proprietary borders and therefore every effort will be made to conserve resources throughout our operations. Growth of our company depends on our abilities to minimise or eliminate our impacts on our surroundings.

Following are our specific ideals:

- **Compliance**

Hanlon Concrete is committed to implement and maintain an Environmental Management System to meet the requirements of **ISO 14001:2015**. Hanlon Concrete will comply with all applicable environmental legislation and sustainability commitments.

- **Waste Generation and Pollution**

Hanlon Concrete is committed to prevent pollution generation and waste generation and will implement measures to increase the proportion of that waste which is recycled.

- **Awareness and Commitment**

Our policy towards the environment will be readily available and promoted to all involved parties. We will endeavour to ensure staff and clients are familiar with and implement our environmental commitment and objectives.

- **Natural Environment**

Hanlon Concrete will help to protect and enhance natural habitats and wildlife, take appropriate opportunities to enhance them and be sensitive to landscape issues.

- **Materials and Resources**

Hanlon Concrete will minimize environmental impact with regards to sourcing materials and resources.

- **Transport**

Hanlon Concrete will endeavour to reduce the impact on the environment wherever possible with respect to transport.

- **Energy & Water Consumption**

Hanlon Concrete will promote greater efficiency in energy & water consumption and continuing to examine the possibility of using 'green' sources and close circuits when possible.

Thank you for helping us to help the environment,

Fergus O'Hara
